Date:
6th May 2010

Time:
9.00 am - 1.30pm

Venue:
HP Amen Corner
Cain Road
Bracknell
Berkshire
RG12 1HN

HP NDNA Technology Briefing

We would like to invite you to attend our NDNA Customer Technology Briefing, held on Thursday 6th May 2010 at our Bracknell HP Offices.

HP recognises the pressure to keep IT under control, green and secure, wherever it is located and whatever its function. With the recent inclusion in the NDNA contract, HP can offer a complete personal computing solution to all Higher Education organisations.

This briefing will demonstrate HP's portfolio of products and how these can benefit your organisation. Furthermore the briefing will discuss HP's environmental and recycling solutions, so you can secure and manage a more environmentally-friendly total IT environment.

The event will start at precisely 9.30 am, with tea/coffee and arrival from 9.00 am. Refreshments will be served throughout the day and you will be presented with an opportunity to talk to a HP pre-sales consultant and explore some of HP's equipment.

If you wish to attend, please contact Ella Thompson at: ella.thompson@hp.com.
